

## SUMMARY OF FINANCIAL PERFORMANCE

Tables 16 and 17 provide an overview of APVMA financial performance for 2014–15. Full details are in the audited financial statements on the following pages.

## Income

Our total income for this financial year was \$29.741 million (Table 16), an increase of \$1.466 million (5.18 per cent) from the previous year. This increase is largely due to the lower than normal result in 2013–14 when \$2.0 million was returned to the budget as part of the Better Regulations reform funding agreement.

## **TABLE 16: INCOME 2014-15**

| Income source                | Income (\$'000) | %      |
|------------------------------|-----------------|--------|
| Receipts from industry       |                 |        |
| Application fees             | 5 554           | 18.68  |
| Levies                       | 16 263          | 54.68  |
| Annual fees (renewal fees)   | 4 703           | 15.81  |
| Other receipts from industry | 1 921           | 6.46   |
| Parliamentary appropriation  | 743             | 2.50   |
| Other revenue                | 557             | 1.87   |
| Total income                 | 29 741          | 100.00 |

## **Expenditure**

Total operating expenses for 2014–15 were \$33.204 million (Table 17), an increase of \$1.207 million (3.77 per cent) from the previous year.

## TABLE 17: EXPENDITURE, 2014–15 (INCLUDING COMPARISON WITH PORTFOLIO BUDGET STATEMENT)

| Total expenditure | 33 204                                    | 100.00           | 32 182                               |

<sup>- =</sup> nil; PBS = Portfolio Budget Statement

Further details on the comparison of the APVMA's actual results for 2014–15 with the budget can be found in note 18 of the audited financial statements.

## Introduction of the PGPA Act

The PGPA Act was introduced on 1 July 2014, replacing both the FMA Act and the *Commonwealth Authorities and Companies Act 1997*. The APVMA was one of a small number of government entities that was reclassified from an FMA Act agency to a corporate Commonwealth entity. This reclassification resulted in a change to the way the APVMA accounts for industry fees and charges. This category of income is now recorded when money is received rather than when it was earned.

## 2014-15 result and equity balance

The APVMA recorded a net operating deficit of \$3.463 million for 2014–15. However, following the reclassification to a corporate Commonwealth entity, the APVMA was required to account for an additional \$5.155 million as an equity injection, being industry fees and charges treated as unearned income in 2013–14. This inclusion of the equity injection lead to an overall result of a \$1.692 million surplus.

The equity balance at 30 June 2015 was \$10.490 million.

## **Audit results**

The APVMA achieved an unqualified audit result, and there were no adverse findings.

## Financial reserve

Revenue can vary significantly from year to year as a result of fluctuations in sales of pesticides and veterinary medicines, because of changing environmental conditions. To manage this, the APVMA aims to hold a financial reserve (which forms part of equity).

The financial reserve is based on three months of operating expenses and is currently set at \$7.0 million.

## Advertising and market research

No advertising or market research was conducted during 2014–15.

## **Consultancies**

In 2014–15, 23 new consultancy contracts were entered into, involving total actual expenditure (including capitalisation) of \$440 000. In addition, 28 ongoing consultancy contracts were active this year, involving total actual expenditure of \$802 000.

Selection processes are described in terms drawn from the Commonwealth procurement guidelines. Direct sourcing' refers to a selection process in which neither a tender nor a panel was used. In these situations, multiple quotes were obtained, with the number of quotes depending on the value of the procurement. APVMA Finance Procedure 4, 'Purchasing', outlines the number of quotes required:

| • | Purchase of goods/services | to \$2000            | One quote            |
|---|----------------------------|----------------------|----------------------|
| • | Purchase of goods/services | \$2001 to \$10 000   | Two written quotes   |
| • | Purchase of goods/services | \$10 001 to \$80 000 | Three written quotes |
| • | Purchase of goods/services | \$80 000 and over    | Tender               |

Exemptions to these requirements may be approved in some circumstances.

## INDEPENDENT AUDITOR'S REPORT

## To the Minister for Agriculture

I have audited the accompanying annual financial statements of the Australian Pesticides and Veterinary Medicines Authority for the year ended 30 June 2015, which comprise:

- · Statement by the Accountable Authority and the Chief Financial Officer;
- · Statement of Comprehensive Income;
- · Statement of Financial Position;
- · Statement of Changes in Equity;
- · Cash Flow Statement;
- · Schedule of Commitments; and
- Notes to and forming part of the financial statements comprising a Summary of Significant Accounting Policies and other explanatory information.

## Chief Executive's Responsibility for the Financial Statements

The Chief Executive of the Australian Pesticides and Veterinary Medicines Authority is responsible under the *Public Governance, Performance and Accountability Act 2013* for the preparation and fair presentation of annual financial statements that comply with Australian Accounting Standards and the rules made under that Act. The Chief Executive is also responsible for such internal control as is necessary to enable the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

My responsibility is to express an opinion on the financial statements based on my audit. I have conducted my audit in accordance with the Australian National Audit Office Auditing Standards, which incorporate the Australian Auditing Standards. These auditing standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the Accountable Authority of the entity, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

## Independence

In conducting my audit, I have followed the independence requirements of the Australian National Audit Office, which incorporate the requirements of the Australian accounting profession.

## Opinion

In my opinion, the financial statements of the Australian Pesticides and Veterinary Medicines Authority:

- (a) comply with Australian Accounting Standards and the Public Governance, Performance and Accountability (Financial Reporting) Rule 2015; and
- (b) present fairly the financial position of the Australian Pesticides and Veterinary Medicines Authority as at 30 June 2015 and its financial performance and cash flows for the year then ended.

Australian National Audit Office

Peter Kerr

Executive Director

Delegate of the Auditor-General

Canberra

10 September 2015

## STATEMENT BY THE ACCOUNTABLE AUTHORITY AND THE CHIEF FINANCIAL OFFICER

In our opinion, the attached financial statements for the year ended 30 June 2015 comply with subsection 42(2) of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act), and are based on properly maintained financial records as per subsection 41(2) of the PGPA Act.

In our opinion, at the date of this statement, there are reasonable grounds to believe that the Australian Pesticides and Veterinary Medicines Authority will be able to pay its debts as and when they fall due.

| Other Commitments                 |             |        |
| One year or less                  | 2 780       | 2 712  |
| From one to five years            | 14          | 88     |
| Total other commitments           | 2 794       | 2 800  |
| Net commitments by maturity       | 10 159      | 11 425 |
|                                   | <del></del> |        |

NB: Commitments are GST inclusive where relevant.

## Leases for office accommodation.

Lease payments for the rental of the APVMA's office at Amtech Estate, Symonston are subject to annual increase of 3.75%. During 11/12 the APVMA signed a new lease agreement, extending the lease term to October 2020, with a further two 5 year ontions available

2. The nature of other commitments is for the purchase of scientific assessment services and general contractors/consultants goods and services.

<sup>1.</sup> Operating leases included are effectively non-cancellable and comprise:

for the year ended 30 June 2015

## Note 1: Summary of Significant Accounting Policies

## 1.1 Objectives of the Australian Pesticides and Veterinary Medicines Authority

The Australian Pesticides and Veterinary Medicines Authority (APVMA) is an Australian Government controlled entity. The APVMA is responsible for the assessment and registration of pesticides and veterinary medicines and for their regulation up to and including the point of retail sale.

The APVMA administers the National Registration Scheme for Agricultural and Veterinary Chemicals (NRS) in partnership with the States and Territories and with the active involvement of other Australian government agencies.

Its role is to independently evaluate the safety and performance of chemical products intended for sale, making sure that the health and safety of people, animals and the environment are protected.

The APVMA (formerly National Registration Authority for Agricultural and Veterinary Chemicals) was established under the *Agricultural and Veterinary Chemicals (Administration) Act 1992*. Following the introduction of the *Public Governmance, Performance and Accountability Act 2013* (PGPA Act) on 1 July 2014, the APVMA was reclassified from an FMA Act entity to a corporate Commonwealth entity.

The APVMA is structured to meet a single outcome:

Outcome 1: Protection of the health and safety of people, animals, the environment, and agricultural and livestock industries through regulation of pesticides and veterinary medicines.

The continued existence of the APVMA in its present form and with its present programs is dependent on Government policy and on continuing appropriations by Parliament for the APVMA's administration and programs.

## 1.2 Basis of Preparation of the Financial Report

The financial statements are general purpose financial statements and are required by section 42 of the PGPA Act.

The Financial Statements and notes have been prepared in accordance with:

- a) Financial Reporting Rule (FRR) for reporting periods ending on or after 1 July 2014; and
- b) Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, except for certain assets at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position.

The financial report is presented in Australian dollars and values are rounded to the nearest thousand dollars unless otherwise specified.

Unless an alternative treatment is specifically required by an accounting standard or the FRR, assets and liabilities are recognised in the statement of financial position when and only when it is probable that future economic benefits will flow to the entity or a future sacrifice of economic benefits will be required and the amounts of the assets or liabilities can be reliably measured. However, assets and liabilities arising under executory contracts are not recognised unless required by an accounting standard. Liabilities and assets that are unrecognised are reported in the schedule of commitments or the schedule of contingencies.

Unless alternative treatment is specifically required by an accounting standard, income and expenses are recognised in the Statement of Comprehensive Income when and only when the flow, consumption or loss of economic benefits has occurred and can be reliably measured.

## 1.3 Significant Accounting Judgements and Estimates

In the process of applying the accounting policies listed in this note, the APVMA has made the following judgements that have the most significant impact on the amounts recorded in the financial statements: the fair value of leasehold improvements have been taken to be the market value of similar properties as determined by an individual valuer. In some instances, entity buildings are purpose-built and may in fact realise more or less in the market.

No accounting assumptions or estimates have been identified that have a significant risk of causing a material adjustment to carrying amounts of assets and liabilities within the next accounting period.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 1: Summary of Significant Accounting Policies

## 1.4 New Australian Accounting Standards

Adoption of new Australian Accounting Standard Requirements

The following standard has been adopted earlier than the application date as stated in the standard.

| Standard                       | Nature of change in accounting policy and adjustment to financial statements  |
|--------------------------------|---|
| AASB 13 Fair value measurement | The amendments change AASB 13 Fair Value Measurement and provide relief for not-for-profit public sector entities from making some previously-required disclosures about the fair value measurement of property, plant and equipment assets which are primarily held for internal or policy use, rather than to earn revenue. More specifically, the disclosure of quantitative information about the significant unobservable inputs used in fair value measurements and the sensitivity of certain fair value measurements to changes in unobservable inputs is no longer required. |

The following new standard was issued prior to the signing of the statement by the accountable authority and chief financial officer, were applicable to the current reporting period and had a material effect on the entity's financial statements:

| Standard                      | Nature of change in accounting policy and adjustment to financial statements  |
|-------------------------------|---|
| AASB 1055 Budgetary reporting | AASB 1055 sets out budgetary disclosure requirements for whole-of-government financial statements, each government's General Government Sector (GGS) financial statements and the financial statements for each not-for-profit entity with the GGS.  AASM 1055 requires disclosure of the original budget as well as explanations for major variances between the original budget and the actual amount disclosed in the financial statements. The original budget is the first budget presented to Parliament for the reporting period.  When budget information has not been presented on the same basis and classification as the financial statements, AASB 1055 requires budget information to be restated to be consistent with the financial statements.  Major variance explanation disclosures are those relevant to the information needs of users when assessing performance and accountability.  AASB 1055 does not require prior-year budget comparatives. |

All other new or revised standards and interpretations that were issued prior to the sign-off date and are applicable to the current reporting period did not have a material effect, and are not expected to have a future material effect, on the entity's financial statements.

## Future Australian Accounting Standard Requirements

The following amended standards were issued by the Australian Accounting Standards Board prior to the signing of the statement by the accountable authority and chief financial officer, which are expected to have a material impact on the entity's financial statements for future reporting period(s):

| Standard   | * * | Nature of impending changes in accounting policy and likely impact on initial application  |
|--|-----|--|
| AASB 2015-6 Extending related party<br>disclosures fo Not For Profit public<br>sector entities |     | AASB 2015-6 removed the exception that allowed not-for-profit public sector entities to avoid applying certain paragraphs of AASB 124 Related Party Disclosures.  The amended standard will require these entitites to identify and disclose transactions with key management personnel that occur outside the person's capacity as an ordinary taxpayer, or that involving a benefit not available to the general public. |

All other new standards, revised standards, interpretations or amending standards that were issued by the Australian Accounting Standards Board prior to the sign-off date and are applicable to future reporting period(s) are not expected to have a future material impact on the entity's financial statements.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 1: Summary of Significant Accounting Policies

### 1.5 Revenue

Revenue from the sale of goods is recognised when:

- a) the risks and rewards of ownership have been transferred to the buyer;
- b) the APVMA retains no managerial involvement nor effective control over the goods;
- c) the revenue and transaction costs incurred can be reliably measured; and
- d) it is probable that the economic benefits associated with the transaction will flow to the APVMA.

Revenue from rendering of services is recognised by reference to the stage of completion of contracts at the reporting date. The revenue is recognised when:

- a) the amount of revenue, stage of completion and transaction costs incurred can be reliably measured; and
- b) the probable economic benefits with the transaction will flow to the entity.

The stage of completion of contracts at the reporting date is determined by reference to the proportion that costs incurred to date bear to the estimated total costs of the transaction.

Receivables for goods and services, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at balance date. Allowances are made when collectability of the debt is no longer probable.

Interest revenue is recognised using the effective interest method as set out in AASB 139 Financial Instruments: Recognition and Measurement

## Resources Received Free of Charge

Resources received free of charge are recognised as revenue when, and only when, a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense. Resources received free of charge are recorded as either revenue or gains depending on their nature.

Contributions of assets at no cost of acquisition or for nominal consideration are recognised as gains at their fair value when the asset qualifies for recognition, unless received from another non-corporate or corporate Commonwealth entity as a consequence of a restructuring of administrative arrangements (refer to Note 1.7).

## Revenue from Government

Funding received or receivable from non-corporate Commonwealth entities (appropriated to the non-corporate Commonwealth entity as a corporate Commonwealth entity payment item for payment to the APVMA) is recognised as Revenue from Government unless they are in the nature of an equity injection or a loan.

Corporate Commonwealth entities can not recognise monies collected on behalf of the Commonwealth as administered revenue or an asset. As fees and charges paid by industry is administered in nature, amounts owed to the APVMA can not be recognise as revenue or a trade receivable.

## 1.6 Gains

## Resources Received Free of Charge

Resources received free of charge are recognised as gains when, and only when, a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense.

Resources received free of charge are recorded as either revenue or gains depending on their nature.

Contributions of assets at no cost of acquisition or for nominal consideration are recognised as gains at their fair value when the asset qualifies for recognition, unless received from another Government entity as a consequence of a restructuring of administrative arrangement (refer to Note 1.7).

## Sale of Assets

Gains from disposal of assets are recognised when control of the asset has passed to the buyer.

## 1.7 Transactions with the Government as Owner

## Equity Injections

Amounts appropriated which are designated as 'equity injections' for a year (less any formal reductions) and Departmental Capital Budgets (DCBs) are recognised directly in contributed equity in that year.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 1: Summary of Significant Accounting Policies

## Restructuring of Administrative Arrangements

Net assets received from or relinquished to another Government entity under a restructuring of administrative arrangements are adjusted at their book value directly against contributed equity.

## Other Distributions to Owners

The FRR require that distributions to owners be debited to contributed equity unless it is in the nature of a dividend.

## 1.8 Employee Benefits

Liabilities for 'short-term employee benefits' (as defined in AASB 119 *Employee Benefits*) and termination benefits due within twelve months of balance date are measured at their nominal amounts.

The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

Other long-term employee benefits are measured as net total of the present value of the defined benefit obligation at the end of the reporting period minus the fair value at the end of the reporting period of plan assets (if any) out of which the obligations are to be settled directly.

### Leave

The liability for employee benefits includes provision for annual leave and long service leave. No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees of the APVMA is estimated to be less than the annual entitlement for sick leave.

The leave liabilities are calculated on the basis of employees' remuneration at the estimated salary rates that applied at the time the leave is taken, including the APVMA's employer superannuation contribution rates to the extent that the leave is likely to be taken during service rather than paid out on termination.

The liability for long service leave has been determined by reference to the 'short-hand method' as outlined in the *Resource Management Guide No. 125 - Commonwealth Entities Financial Statements Guide* as at 30 June 2015. The estimate of the present value of the liability takes into account attrition rates and pay increases through promotion and inflation and is discounted using the 10 year bond rate at 30 June 2015.

## Separation and Redundancy

Provision is made for separation and redundancy benefit payments. The APVMA recognises a provision for termination when it has developed a detailed formal plan for the terminations and has informed those employees affected that it will carry out the terminations.

## Superannuation

The majority of staff of the APVMA are members of the Commonwealth Superannuation Scheme (CSS), the Public Sector Superannuation Scheme (PSS) or the PSS accumulation plan (PSSap).

The CSS and PSS are defined benefit schemes for the Australian Government. The PSSap is a defined contribution scheme.

The liability for defined benefits is recognised in the financial statements of the Australian Government and is settled by the Australian Government in due course. This liability is reported by the Department of Finance and Deregulation's administered schedules and notes

The APVMA makes employer contributions to the employee superannuation scheme at rates determined by an actuary to be sufficient to meet the current cost to the Government. The APVMA accounts for the contributions as if they were contributions to defined contribution plans

The liability for superannuation recognised as at 30 June represents outstanding contributions for the financial year.

## 1.9 Leases

A distinction is made between finance leases and operating leases. Finance leases effectively transfer from the lessor to the lessee substantially all the risks and rewards incidental to ownership of leased assets. An operating lease is a lease that is not a finance lease. In operating leases, the lessor effectively retains substantially all such risks and benefits. The APVMA has no finance leases.

The discount rate used is the interest rate implicit in the lease. Leased assets are amortised over the period of the lease. Lease payments are allocated between the principal component and the interest expense.

Operating lease payments are expensed on a straight line basis that is representative of the pattern of benefits derived from the leased assets.

## 1.10 Fair Value Measurement

The entity deems transfers between levels of the fair value hierarchy to have occurred at the end of the reporting period.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 1: Summary of Significant Accounting Policies

## 1.11 Cash

Cash is recognised at its nominal amount. Cash and cash equivalents includes:

- a) cash on hand; and
- b) demand deposits in bank accounts with an original maturity of 3 months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

## 1.12 Financial assets

The APVMA classifies its financial assets in the following categories:

- a) financial assets as at fair value through profit or loss;
- b) held-to-maturity investments;
- c) available-for-sale financial assets; and
- d) loans and receivables.

The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. Financial assets are recognised and derecognised upon trade date.

## Effective Interest Method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period.

Income is recognised on an effective interest basis except for financial assets that are recognised at fair value through the profit and loss.

## Financial Assets at Fair Value Through Profit or Loss

Financial assets are classified as financial assets at fair value through profit or loss (FVTPL) where the financial assets:

- a) have been acquired principally for the purpose of selling in the near future;
- b) are a derivative that is not designated and effective as a hedging instrument; or
- c) are a part of an identified portfolio of financial instruments that the APVMA manages together and has a recent actual pattern of short-term profit-taking.

Assets in this category are classified as current assets.

Financial assets at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest earned on the financial asset. Interest earned on any financial assets at FVTPL is included in line item 'Change in fair value through profit and loss' and is not to be included again in the line item 'Interest'. The APVMA has no financial assets at fair value through the profit or loss.

## Available-for-Sale Financial Assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.

Available-for-sale financial assets are recorded at fair value. Gains and losses arising from changes in fair value are recognised directly in reserves (equity) with the exception of impairment losses. Interest is calcualted using the effective interest method and foreign exchange gains and losses on monetary assets are recognised directly in profit or loss. Where the asset is disposed of or is determined to be impaired, part (or all) of the cumulative gain or loss preivoulsy recognised in the reserve is included in surplus and deficit for the period.

Where a reliable fair value cannot be established for unlisted investments in equity instruments, these instruments are valued at cost. The APVMA has no available-for-sale financial assets.

## Held-to-Maturity Investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity dates that the group has the positive intent and ability to hold to maturity are classified as held-to-maturity investments. Held-to-maturity investments are recorded at amortised cost using the effective interest method less impairment, with revenue recognised on an effective yield basis. The APVMA has no held-to-maturity investments.

## Receivables

Trade receivables, and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'receivables'. Receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest rate.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 1: Summary of Significant Accounting Policies

## Impairment of Financial Assets

Financial assets are assessed for impairment at the end of each reporting period.

Financial assets held at amortised cost - if there is objective evidence that an impairment loss has been incurred for loans and receivables or held to maturity investments held at amortised cost, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The carrying amount is reduced by way of an allowance account. The loss is recognised in the Statement of Comprehensive Income

Available for sale financial assets - if there is objective evidence that an impairment loss on an available-for-sale financial asset has been incurred, the amount of the difference between its cost, less principal repayments and amortisation, and its current fair value, less any impairment loss previously recognised in expenses, is transferred from equity to the Statement of Comprehensive income

Financial assets held at cost - if there is objective evidence that an impairment loss has been incurred, the amount of the impairment loss is the difference between the carrying amount of the asset and the present value of the estimated future cash flows discounted at the current market rate for similar assets.

### 1.13 Financial Liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities. 'trade date'

## Financial liabilities at Fair Value Through Profit or Loss

Financial liabilities at fair value through profit or loss are initially measured at fair value. Subsequent fair value adjustments are recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability.

## Other Financial Liabilities

Other financial liabilities are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Supplier and other payables are recognised at amortised cost. Liabilities are recognised to the extent that the goods or services have been received (and irrespective of having been invoiced).

## 1.14 Contingent Liabilities and Contingent Assets

Contingent liabilities and contingent assets are not recognised in the statement of financial position but are reported in the notes. They may arise from uncertainty as to the existence of a liability or asset or represent an asset or liability in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain and contingent liabilities are disclosed when settlement is greater than remote.

## 1.15 Acquisition of Assets

Assets are recorded at cost on acquisition except as stated below. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken. Financial assets are initially measured at their fair value plus transaction costs where appropriate.

Assets acquired at no cost, or for nominal consideration, are initially recognised as assets and revenues at their fair value at the date of acquisition, unless acquired as a consequence of restructuring of administrative arrangements. In the latter case, assets are initially recognised as contributions by owners at the amounts at which they were recognised in the transferor APVMA's accounts immediately prior to the restructuring.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 1: Summary of Significant Accounting Policies

## 1.16 Property, Plant and Equipment

## Asset Recognition Threshold

Purchases of property, plant and equipment are recognised initially at cost in the statement of financial position, except for purchases costing less than \$5 000 for leasehold improvements and \$2 000 for all other types, which are expensed in the year of acquisition (other than where they form part of a group of similar items which are significant in total).

The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located. This is particularly relevant to 'makegood' provisions in property leases taken up by the APVMA where there exists an obligation to restore the property to its original condition. These costs are included in the value of the APVMA's leasehold improvements with a corresponding provision for the 'makegood' recognised.

## Revaluations

Following initial recognition at cost, property, plant and equipment are carried at fair value. Valuations are conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date. The regularity of independent valuations depends upon the volatility of movements in market values for the relevant assets

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reverses a previous revaluation decrement of the same asset class that was previously recognised through operating result. Revaluation decrements for a class of assets are recognised directly through operating result except to the extent that they reverse a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the asset restated to the revalued amount.

## Depreciation

Depreciable property plant and equipment assets are written-off to their estimated residual values over their estimated useful lives to the APVMA using, in all cases, the straight-line method of depreciation.

Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

2

Leasehold improvements Shorter of lease term or useful life Shorter of lease term or useful life Property, Plant and Equipment 3 to 15 years 3 to 15 years

## *Impairment*

All assets were assessed for impairment at 30 June 2015. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if the APVMA were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

## **Derecognition**

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

## 1.17 Intangibles

The APVMA's intangibles comprise internally developed and externally acquired software for internal use. These assets are carried at cost less accumulated amortisation and accumulated impairment losses.

Software is amortised on a straight-line basis over its anticipated useful life. The useful lives of the APVMA's software are 3 to 10 years (2014: 3 to 10 years).

All software assets were assessed for indications of impairment as at 30 June 2015.

## 1.18 Taxation

The APVMA is exempt from all forms of taxation except Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST). Revenues, expenses and assets are recognised net of GST except:

- a) where the amount of GST incurred is not recoverable from the Australian Taxation Office; and
- b) for receivables and payables where applicable.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 2: Events After the Reporting Period

There was no subsequent event that had the potential to significantly affect the ongoing structure and financial activites of the entity.

In 2014 industry fees and charges were returned to the APVMA via a departmental special appropriation.

# NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 5: Fair Value Measurements

The following table provides an analysis of assets and liabilities that are measured at fair value.

The different levels of fair value heirarchy are defined below.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilites than the entity can access at measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

## Note 5A: Fair Value Measurements, Valuation Techniques and Input Used

1. Open balance as determined in accordance with AASB 13

2. These losses are presented in the Statement of Comprehensive Income under Depreciation and Amortisation.

3. A minor adjustment was made to the 2014 comparative figures to amend the incorrect allocation of accumulated depreciation. This did not result in a change to the closing balance.

4. There have been no transfers between levels of the hierarchy during the year.

The entity's policy for determining when transfers between levels are deemed to have occurred can be found in Note 1.

| Total employment benefits                         | 1 932 456 | 2 118 285 |

The total number of senior management positions in 2014 was eight. In October 2014, following an internal restructure, the total number of senior management positions dropped to six.

The 2014 comparative figures have been amended following the change in definition of senior management and the change in calculation of their remuneration.

## 13D: Fair value of financial instruments

 $The \ net \ fair \ values \ of \ cash \ and \ cash \ equivalents, \ trade \ receivables \ and \ other \ receivables \ approximate \ their \ carrying \ amounts.$ 

The net fair values for trade creditors and other liabilities are approximated by their carrying amounts.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 13: Financial Instruments

## 13E: Credit risk

The APVMA is exposed to minimal credit risk as loans and receivables are cash, trade receivables and other receivables. The maximum exposure to credit risk is the risk that arises from potential default of a debtor. This amount is equal to the total of trade and other debtors (2015: \$163 000 and 2014: \$743 000).

To aid the APVMA to manage its credit risk, there are internal policies and procedures that guide employees on debt recovery techniques that are to be applied.

The APVMA holds no collateral to mitigate against credit risk.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 13: Financial Instruments

## 13F: Liquidity risk

The APVMA's financial liabilities are payables. The exposure to liquidity risk is based on the notion that the APVMA will encounter difficulty in meeting its obligations associated with financial liabilities.

This is highly unlikely due to the level of funds held in reserve as well as funding mechanisms available to the APVMA (Advance from the Finance Minister). The APVMA manages its budgeted funds to ensure it has adequate funds to meet payments as they fall due. In addition, the APVMA has policies in place to ensure timely payments are made when due and has no past experience of default.

## Maturities for non-derivative financial liabilities 2015

## Cost recovered activities:

The agricultural and veterinary medicines chemical industry pay application fees to register new products and active constituents, amend a current registration, or apply for a permit. An annual fee is payable each year to renew the registration of a product. Product owners also pay an annual levy based on the sales of their registered products.

Documentation (Cost Recovery Impact Statement) for the above activities is available at www.apvma.gov.au/node/4161.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 18: Budgetary Reporting and Explanation of Major Variances

The following tables provide a comparison of the original budget as presented in the 2014-15 Portfolio Budget Statements (PBS) to the 2014-15 final outcome as presented in accordance with Australian Accounting Standards for the entity. The Budget is not audited.

Variances are considered to be 'major' based on the following criteria:

- the variance between budget and actual is greater than 10% and greater than \$250,000; and
- The variance between budget and actual is greater than 2% of the relevant category (Income, Expenses and Equity totals); or
- an item below this threshold but is considered important for the reader's understanding or is relevant to an assessment of the discharge of accountability and to an analysis of performance of an entity.

<sup>1.</sup> The APVMA's original budgeted financial statement that was first presented to parliament in respect of the reporting period (i.e. from the entity's 2014-15 Portfolio Budget Statements (PBS)).

<sup>2.</sup> Between the actual and original budgeted amounts for 2015. Explanations of major variances are provided at Note 18B.

<sup>3. \$685,000</sup> has been reclassifed from employee provisions to other payables for budget 2015. This is due to inconsistent classification of accrued salary and superannuation. In the PBS, these accruals are recorded as employee provisions while in the financial statements they are recorded as other payables.

<sup>1.</sup> The APVMA's original budgeted financial statement that was first presented to parliament in respect of the reporting period (i.e. from the entity's 2014-15 Portfolio Budget Statements (PBS)).

<sup>2.</sup> Between the actual and original budgeted amounts for 2015. Explanations of major variances are provided at Note 18B.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2015

## Note 18: Budgetary Reporting and Explanation of Major Variances

## Note 18B: Departmental Major Budget Variances for 2015

## Explanations of major variances

Affected line items (and statements)

In April 2014, when the APVMA's budget for the 14-15 PBS was prepared, there was uncertainty as to whether the APVMA would become a non-corporate Commonwealth entity or a corporate Commonwealth entity when the PGPA Act commenced on 1 July 2014. Given that at the time the APVMA's current status was an FMA Act agency, the budget was prepared on the basis that the APVMA would become a non-corporate Commonwealth entity.

However, as stated previously in Note 1, on 1 July 2014 the APVMA was reclassified as a corporate Commonwealth entity.

The major change to the APVMA's financial statements following this reclassification was the closing of the APVMA's special account. The combined administered and departmental special account balance at 30 June 2014 of \$18.579 million was appropriated to a special appropriation. Monies held by the Department of Finance representing unspent cash from fees and charges paid by industry are now recorded as a receivable. Prior to 1 July 2014 these funds were held in a special account and recorded as cash.

- · Cash and cash equivalents
- Trade and other receivables (Statement of Financial Position)
- Financing activities Cash used (Statement of Financial Position)

The administered portion of the \$18.579 million balance of the special account at 30 June 2014 was \$5.155 million. On 1 July 2014, this balance became an equity injection, based on the notion that the re-classification from an FMA Act agency to a corporate Commonwealth entity and the resulting dissolving of APVMA's administered function is a restructure of administrative arrangements.

administrative arrangements.

Actual total expenditure is approximately 3.2% above budget. This is largely due to increased staff levels required in the transitional years to

complete the implementation of the Better Regulation reforms.

Revenue from government is slightly under budget due to lower than anticipated fees and charges paid by industry. This decrease is also partially explained by the fact the APVMA can no longer recognise outstanding fees and charges as revenue or a trade receivable (refer Note 1.5 for further details).

After the completion of the 14-15 PBS budget, it was decided that additional funds would be allocated to continue with the significant investment in internally developed software (intangibles) to support the ongoing reforms to the APVMA's activities.

Payables liability is higher than forecast largely due to the timing of supplier payments. The amount in the PBS was based on the situation where a significant proportion of creditors were paid just prior to year end.
