Veterinary Medicines Authority**

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

## **General information**

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

## **Distribution and subscription**

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](#).

<b>Application no.</b>	140428
<b>Product name</b>	Floxatril 50 mg/mL Antibacterial Injection
<b>Active constituent</b>	50 mg/mL enrofloxacin
<b>Applicant name</b>	Vetpharm Laboratories IP Pty Ltd
<b>Applicant ACN</b>	654 406 756
<b>Date of registration</b>	3 October 2023
<b>Product registration no.</b>	93774
<b>Label approval no.</b>	93774/140428
<b>Description of the application and its purpose, including the intended use of the chemical product</b>	Registration of a 50 mg/mL enrofloxacin injectable solution product and label approval for the treatment of diseases caused by susceptible bacterial pathogens in dogs and cats

<b>Application no.</b>	140032
<b>Product name</b>	AVET Gonadorelin Injection
<b>Active constituent</b>	100 µg/ml gonadorelin as acetate
<b>Applicant name</b>	Avet Health Limited
<b>Applicant ACN</b>	616 838 101
<b>Date of registration</b>	5 October 2023
<b>Product registration no.</b>	93640
<b>Label approval no.</b>	93640/140032
<b>Description of the application and its purpose, including the intended use of the chemical product</b>	Registration of a 100 µg/mL gonadorelin, as gonadorelin acetate, parenteral solution product for oestrus synchronization programs in cattle in combination with PGF2 $\alpha$

<b>Application no.</b>	139397
<b>Product name</b>	Execare Spot-on for Dogs over 25 kg
<b>Active constituents</b>	100 g/L imidacloprid, 25 g/L moxidectin
<b>Applicant name</b>	Vetpharm Laboratories IP Pty Ltd
<b>Applicant ACN</b>	654 406 756
<b>Date of registration</b>	6 October 2023
<b>Product registration no.</b>	93503
<b>Label approval no.</b>	93503/139397
<b>Description of the application and its purpose, including the intended use of the chemical product</b>	Registration of a 25 g/L moxidectin and 100 g/L imidacloprid spot-on solution product for the treatment of fleas, heartworm and worms in dogs

## Revocation of suspension of registration

Pursuant to section 46(2)(b) of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has revoked the suspensions of the registrations listed below with effect from the dates shown.

**Table 7: Product registrations that are no longer suspended**

<b>Product name</b>	Imtrade Dimethoate 400 EC Insecticide
<b>Active constituent</b>	Dimethoate
<b>Holder name</b>	Imtrade Australia Pty Ltd
<b>Applicant ACN</b>	090 151 134
<b>Date suspension revoked</b>	6 October 2023
<b>Product registration no.</b>	69555
<b>Label approval no.</b>	69555/RV2023
<b>Brief reasons</b>	<p>The APVMA suspended the registration of Imtrade Dimethoate 400 EC Insecticide on 19 September 2023 on the basis that it appeared to the APVMA that the product may not meet the safety criteria when used as a post-harvest dip according to the instructions for use on the approved label.</p> <p>On 6 October 2023, the APVMA varied the product registration and label approval to remove the instructions for use as a post-harvest dip, with the holder's consent under section 29A of the Agvet Code. Therefore, the reason for the APVMA's decision to suspend the product registration has been removed.</p>

## Amendments to the APVMA MRL Standard

The Australian Pesticides and Veterinary Medicines Authority (APVMA) approves maximum residue limits (MRLs) of agricultural and veterinary chemicals in agricultural produce, particularly produce entering the food chain. The MRLs approved by the APVMA are associated with a regulatory decision to register a product, grant a permit approval, or as an outcome from a review decision and are set out in the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Instrument 2023*. The *MRL Standard* lists MRLs of substances that may arise from the approved use of agricultural and veterinary chemical products containing those substances on commodities used for human consumption as well as livestock feeds. The *MRL Standard* also provides the relevant residue definitions to which these MRLs apply. There may be situations where the residue definition for monitoring and enforcement is different to the definition used for dietary risk assessment purposes.

MRLs are set at levels which are not likely to be exceeded if the agricultural or veterinary chemicals are used in accordance with approved label instructions. In considering MRLs and variation to MRLs, the APVMA takes into account studies on chemistry, metabolism, analytical methodology, residues, toxicology, good agricultural practice and dietary exposure. In approving MRLs, the APVMA is satisfied, from dietary exposure assessment, that the levels set are not an undue hazard to human health.

The APVMA has amended the *MRL Standard*, and the changes will have affect the day after the instrument is registered.

Details of the amendment can be found in the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Amendment Instrument (No. 1) 2023*.

The amendments will be incorporated into the compilation of the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Instrument 2023*.

The MRL Standard is accessible via the [Federal Register of Legislation website](#).

## Proposal to amend Schedule 20 in the Australian New Zealand Food Standards Code

In the previous notice on page 29 of APVMA Gazette No. 21, the APVMA gazetted amendments which it has approved to vary maximum residue limits (MRLs) for substances contained in agricultural and veterinary chemical products as set out in the APVMA's MRL Standard.

Under section 82 of the *Food Standards Australia New Zealand Act 1991*, the APVMA is proposing to incorporate those variations (Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Amendment Instrument (No. 1) 2023) to MRLs into Schedule 20 – Maximum residue limits in the Australia New Zealand Food Standards Code.

MRLs contained in Schedule 20 provide the limits for residues of agricultural and veterinary chemicals that may legitimately occur in foods. By this means Schedule 20 permits the sale of treated foods and protects public health and safety by minimising residues in foods consistent with the effective control of pests and diseases.

The APVMA and Food Standards Australia New Zealand (FSANZ) are satisfied, based on dietary exposure assessments and current health standards, that the proposed limits are not harmful to public health.

The agreement between the Australian Government and the New Zealand Government concerning a Joint Food Standards System excludes MRLs for agricultural and veterinary chemicals in food from the system setting joint food standards. Australia and New Zealand independently and separately develop MRLs for agricultural and veterinary chemicals in food.

A Sanitary and Phytosanitary (SPS) notification to the World Trade Organization (WTO) will be made.

The APVMA invites comment on these proposals. Details on how to make a submission appear near the end of this notice, below the details of the proposed amendment.

The APVMA will consider any public comments made in response to this proposal. If the APVMA decides to proceed with the proposal, it will further notify any variations it makes to Schedule 20 in the APVMA Gazette. The variations will take effect as from the date of that subsequent notice.

# Proposed variation to Schedule 20 in the Australia New Zealand Food Standards Code

17 October 2023

Note: Subsection 82(2) of the *Food Standards Australia New Zealand Act 1991* provides that variations to standards are legislative instruments but are not subject to disallowance or sunseting.

## Invitation for submissions

Written submissions are invited from interested individuals and organisations to assist the APVMA in considering the proposal to vary Schedule 20 – Maximum residue limits in the Australia New Zealand Food Standards Code.

Submissions should be strictly confined to relevant matters that the APVMA must consider (such as public health and safety) which are associated with the occurrence of the proposed residues in foods. Comments received outside these grounds will not be considered by the APVMA.

Claims made in submissions should be supported wherever possible by referencing or including relevant studies, research findings, trials and surveys. Technical information should be in sufficient detail to allow independent scientific assessment.

Submissions must be made in writing and should be clearly marked as a 'submission on the proposed amendment to Schedule 20' and quote the correct amendment number.

## Deadline for public submissions

Submissions must be received by 14 November 2023 (28 days from date Gazette published). Submissions received after this deadline will only be considered by prior arrangement or if agreement for an extension has been given prior to this closing date. Agreement to an extension of time will only be given if extraordinary circumstances warrant an extension to the submission period.

Please note: submissions will be published on the APVMA's website, unless you have asked for the submission to remain confidential, or if the APVMA chooses at its discretion not to publish any submissions received (refer to the [public consultation coversheet](#)).

Please lodge your submission using the [public consultation coversheet](#), which provides options for how your submission will be published.

Note that all APVMA documents are subject to the access provisions of the *Freedom of Information Act 1982* and may be required to be released under that Act should a request for access be made.
