The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

GENERAL INFORMATION

The *APVMA (Australian Pesticides and Veterinary Medicines Authority) Gazette* is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 53(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

DISTRIBUTION AND SUBSCRIPTION

The *APVMA Gazette* is published in electronic format only and is available from the APVMA website, www.apvma.gov.au/publications/gazette/.

If you would like to receive email notification when a new edition is published, please subscribe on the APVMA website.

OTHER NOTICES

Cancellation of Active Constituent Approval(s) at the Request of the Approval Holder

In accordance with Section 42 of the Agvet Code, if an interested or approved person in relation to an approval or registration has given to the APVMA a written notice requesting the APVMA to cancel that approval or registration then the APVMA must give written notice of its decision on the request to the person(s) who made the request.

This Gazette notice satisfies the requirement in section 45A (1) of the Agvet Code, that the APVMA must also give notice to any other person to whom, in its opinion such a notice should be given.

At the request of the approval holder, the APVMA has cancelled the approval(s) of the following active constituent:

Active No.	Active Name	Approval Holder	Date of Effect
58055	2,4-D	REDOX PTY LTD	19 February 2014

The following instructions set out how a person can deal with the cancelled active(s).

SUPPLY

A person may supply or cause to be supplied active constituents manufactured prior 19 February 2014 until 19 February 2016.

After 19 February 2016 it will be an offence against the Agvet Codes to have possession or custody of the active constituent(s) with the intention to supply the active constituent(s).

USE

Any person who possesses, has custody of, uses, or otherwise deals with the listed active constituent(s) in accordance with the above instructions is taken to have been issued with a permit under the Agvet Codes to so possess, have custody of, use or otherwise deal with the active constituent(s) from the date that the approval has been cancelled up until 19 February 2016.

The supply and use of the active constituents must be in accordance with the conditions of approval, including any conditions relating to the shelf life or expiry date.

It is an offence to possess, have custody of, use, or deal with the active constituent(s) listed in the table in a manner that contravenes the above instructions.

Revocation of Suspension of a Product Containing Dimethoate to allow Approval of new Label

On 24 February 2014 the APVMA revoked the suspension of the following dimethoate product registrations to allow approval of a new product labels that have instructions consistent with the suspension instructions of 6 October 2011.

Table 1: Registered products containing dimethoate and new approved labels

1.Product No	2.Product Name	3.Registrant	4.Label Approvals that remain suspended	5.New Label Approval that is not suspended

55704	Conquest Dimethoate 400 Systemic Insecticide	Conquest Crop Protection Pty Ltd	55704/0502	55704/60954

The suspension of the above product registrations has been revoked to allow the approval of new labels with instructions consistent with those issued by the APVMA.

Please note that the label approvals listed in Column 4 remain suspended. Products bearing these suspended labels must continue to be used only in accordance with the instructions issued by the APVMA to allow continued use of suspended dimethoate products. See *PER 13155 and 13156 for the current instructions for the use of suspended dimethoate products and labels*. Label approvals listed in Column 5 of Table 1 may be used according to new label instructions.

CERTAIN OTHER DIMETHOATE PRODUCTS AND LABEL APPROVALS ARE NOT INCLUDED IN THIS REVOCATION

Certain other dimethoate products and labels (as listed in Table 2 below) in addition to previous label approvals for the above products (as listed in column 4 of Table 1) remain suspended and must only be used in accordance with the instructions issued by the APVMA in PER 13155 and 13156. See *Gazette Notice No. APVMA 20, Tuesday, 11 October 2011 Suspension of Products Containing Dimethoate and Associated Label Approvals* for the original suspension notice.

The status of dimethoate products may be confirmed by searching for the product number on the APVMA [PubCRIS](#) database search.

FURTHER CHANGES TO INSTRUCTIONS FOR USE MAY BE REQUIRED

Please note that the review of all dimethoate products is still ongoing and further changes to the status of registrations and the instructions for use of dimethoate products may be required prior to finalisation of the review. In particular, there are findings arising from the [Human Health Risk Assessment of Dimethoate—Exposure and Risk Assessment of Dimethoate \(OHS component\) Aug 2013 \(PDF, 1.7MB\) | \(DOC, 1.2MB\)](#) that recommend changes to label use instructions. The APVMA will publish Preliminary Review Findings for dimethoate and then seek comments and information that may be used to refine the toxicology, OHS and residues assessments prior to finalising the review. The APVMA will also consider any proposals to amend label directions to address any identified concerns.

Amendments to the APVMA MRL Standard

The Australian Pesticides and Veterinary Medicines Authority (APVMA) approves maximum residue limits (MRLs) of agricultural and veterinary chemicals in agricultural produce, particularly produce entering the food chain. The MRLs approved by the APVMA are associated with a regulatory decision to register a product, grant a permit approval, or as an outcome from a review decision and are set out in the *Agricultural and Veterinary Chemicals Code Instrument No. 4 (MRL Standard) 2012*. The *MRL Standard* lists MRLs of substances that may arise from the approved use of agricultural and veterinary chemical products containing those substances on commodities used for human consumption as well as livestock feeds. The *MRL Standard* also provides the relevant residue definitions to which these MRLs apply. There may be situations where the residue definition for monitoring and enforcement is different to the definition used for dietary risk assessment purposes.

MRLs are set at levels which are not likely to be exceeded if the agricultural or veterinary chemicals are used in accordance with approved label instructions. In considering MRLs and variation to MRLs, the APVMA takes into account studies on chemistry, metabolism, analytical methodology, residues, toxicology, good agricultural practice and dietary exposure. In approving MRLs, the APVMA is satisfied, from dietary exposure assessment, that the levels set are not an undue hazard to human health.

The APVMA has amended the *MRL Standard* with effect from 8 March 2014.

Details of the amendment can be found in the *Agricultural and Veterinary Chemicals Code Instrument No. 4 (MRL Standard) Amendment Instrument 2014 (No. 3)*.

The amendments will be incorporated into the compilation of the *Agricultural and Veterinary Chemicals Code Instrument No. 4 (MRL Standard) 2012*.

The *MRL Standard* is accessible via the ComLaw website www.comlaw.gov.au or the links above.

Proposal to Amend Standard 1.4.2 of the Australia New Zealand Food Standards Code

In the previous notice, the APVMA gazetted particular amendments which it has approved varying maximum residue limits (MRLs) for substances contained in agricultural and veterinary chemical products as set out as in the APVMA's *MRL Standard*.

Under Section 82 of the *Food Standards Australia New Zealand Act 1991* the APVMA is proposing to incorporate these variations (*Agricultural and Veterinary Chemicals Code Instrument No. 4 (MRL Standard) Amendment Instrument 2014 (No. 3)*) to MRLs into Standard 1.4.2 – Maximum Residue Limits of the Australia New Zealand Food Standards Code.

MRLs contained in Standard 1.4.2 provide the limits for residues of agricultural and veterinary chemicals that may legitimately occur in foods. By this means, Standard 1.4.2 permits the sale of treated foods and protects public health and safety by minimising residues in foods consistent with the effective control of pests and diseases.

The APVMA and FSANZ are satisfied, based on dietary exposure assessments and current health standards, that the proposed limits are not harmful to public health.

The Agreement between the Government of Australia and the Government of New Zealand concerning a Joint Food Standards System, excludes MRLs for agricultural and veterinary chemicals in food from the system setting joint food standards. Australia and New Zealand independently and separately develop MRLs for agricultural and veterinary chemicals in food.

Food Standards Australia New Zealand (FSANZ) will make a Sanitary and Phytosanitary (SPS) notification to the World Trade Organization (WTO).

The APVMA invites comment on these proposals. Details on how to make a submission appear near the end of this notice, below the details of the proposed amendment.

The APVMA will consider any public comments made in response to this proposal. If the APVMA decides to proceed with the proposal, it will further notify any variations it makes to Standard 1.4.2 in the APVMA *Gazette*. The variations will take effect as from the date of that subsequent notice.

DRAFT VARIATIONS TO THE AUSTRALIA NEW ZEALAND FOOD STANDARDS CODE

Note: The following amendments are in a format that accords with the proposed amending Legislative Instrument which, in turn, has to be consistent with the existing format of Standard 1.4.2 (Maximum Residue Limits) of the *Australia New Zealand Food Standards Code*.

PROPOSED AMENDMENT (AGRICULTURAL AND VETERINARY CHEMICALS CODE INSTRUMENT NO. 4 (MRL STANDARD) AMENDMENT INSTRUMENT 2014 (NO. 3))

Note: Subsection 82(2) of the *Food Standards Australia New Zealand Act 1991* provides that variations to standards are legislative instruments, but are not subject to disallowance or sunseting.

To commence: on gazettal of variation

Standard 1.4.2 of the *Australia New Zealand Food Standards Code* is varied by –

1. inserting in alphabetical order in Schedule 1, the foods and associated MRLs for each of the following chemicals –

Abamectin	
Sum of avermectin B1a, avermectin B1b and (Z)-8,9 avermectin B1a, and (Z)-8,9 avermectin B1b	
Kaffir lime leaves	T0.5
Lemon grass	T0.5
Watercress	T0.5
Maldison	
Maldison	
Onion, Welsh	T0.1
Vegetables [except beans (dry); cauliflower; chard (Silver beet); egg plant; garden pea; kale; kohlrabi; lentil (dry); onion, welsh; Peppers, Sweet; root and tuber vegetables; shallot; spring onion; tomato; turnip, garden]	2

2. omitting from Schedule 1 the foods and associated MRLs for each of the following chemicals –

Maldison	
Maldison	
Vegetables [except beans (dry); cauliflower; chard (Silver beet); egg plant; garden pea; kale; kohlrabi; lentil (dry); Peppers, Sweet; root and tuber vegetables; shallot; spring onion; tomato; turnip, garden]	2

3. omitting from Schedule 1, under the entries for the following chemicals, the maximum residue limit for the food, substituting –

Maldison	
Maldison	
Shallot	T0.1
Spring onion	T0.1

INVITATION FOR SUBMISSIONS

Written submissions are invited from interested individuals and organisations to assist the APVMA in considering the proposal to vary Standard 1.4.2 – Maximum Residue Limits of the *Australia New Zealand Food Standards Code*. Submissions should be strictly confined to relevant matters that the APVMA must consider (such as public health and safety) which are associated with the occurrence of the proposed residues in foods. Comments received outside these grounds will not be considered by the APVMA. Claims made in submissions should be supported wherever possible by referencing or including relevant studies, research findings, trials, surveys etc. Technical information should be in sufficient detail to allow independent scientific assessment.

Please note that FSANZ will make a SPS notification to the WTO and submissions related to impacts on international trade should be made to FSANZ in response to that notification.

All personal and *confidential commercial information* (CCI)¹ material contained in submissions to the APVMA will be treated confidentially.

Submissions must be made in writing and should be clearly marked as a 'submission on the proposed amendment to Standard 1.4.2' and quote the correct amendment number.

¹ A full definition of "confidential commercial information" is contained in the Agricultural and Veterinary Chemicals Code (Agvet Code), which is scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*.

DEADLINE FOR PUBLIC SUBMISSIONS: 6 pm (AEST) 8 April 2014

SUBMISSIONS RECEIVED AFTER THIS DEADLINE WILL ONLY BE CONSIDERED BY PRIOR ARRANGEMENT

Submissions received after this date will only be considered if agreement for an extension has been given prior to this closing date. Agreement to an extension of time will only be given if extraordinary circumstances warrant an extension to the submission period.

Application Summaries

The APVMA publishes complete application summaries on the APVMA website, www.apvma.gov.au. They are published in weekly instalments using the date the application was accepted for assessment. If an application summary has been amended, the APVMA will publish the amended version on the website and list it separately in the APVMA Gazette Notice for Application Summaries.

As a requirement of Regulations 8C and E of the Agvet Code, some product names will appear as 'NOT AVAILABLE'.

A summary will be removed from the website 28 days after the application has been finalised. Therefore, some summaries published in this notice may have already been removed prior to the Gazette being published.
