GENERAL INFORMATION

The *APVMA (Australian Pesticides and Veterinary Medicines Authority) Gazette* is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 53(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

DISTRIBUTION AND SUBSCRIPTION

From February 2010, the APVMA will publish the *APVMA Gazette* in electronic format only. The *APVMA Gazette* and information about subscribing to the gazette alert service are available on the APVMA website, www.apvma.gov.au.

Copies of the *APVMA Gazette* from November 1999 until July 2009 will remain available from the APVMA website.

OTHER NOTICES

Amendments to MORAG – Part 7 environment data, application forms and the registration process

Towards the end of 2009, the APVMA sought stakeholder input and comment on the above three documents. This is to notify stakeholders when these documents will come into effect.

PART 7 – ENVIRONMENT DATA (AG PRODUCTS ONLY)

The APVMA received a number of comments on the draft proposed new Part 7. A summary of [stakeholder comments and APVMA responses is now available](#). In response to comments, the APVMA has included a number of amendments.

The new Part 7 – Environment data requirements, which have been included in AgMORAG, will come into effect immediately. The APVMA recognises that in some cases, applicants either have completed or nearly completed environment data packages for applications that are soon to be lodged. The APVMA is prepared to consider requests for applications, submitted prior to 4 October 2010, to be screened and assessed against the previous data requirements (1997 version). All applications lodged after 4 October 2010 must comply with the new Part 7 data requirements.

Existing applications, ie applications already lodged with the APVMA, will continue to be screened and assessed against the previous data requirements (1997 version).

APPLICATION FORMS (ALL CATEGORIES)

The APVMA received a few minor comments that were generally supportive. In the interim, the APVMA has been notified that the processes regarding how pesticides and veterinary medicines are considered for scheduling have been amended by the Department of Health and Aging (DoHA) and came into effect 1 July 2010. To facilitate this change to the scheduling process, some additional questions have been added to the Application Overview. These questions, which are located under *Toxicology*, must be completed if the application is for registration or variation of a product where poison scheduling must be considered.

The changes to the application forms will also be reflected in the Electronic Application and Registration System (EARS). The new application forms came into effect 1st July 2010 and all new applications must be use the new forms.

THE REGISTRATION PROCESS

The APVMA received generally favourable comments supporting the development and inclusion of the Registration Process document. Stakeholders view this document as a useful reference tool to increase the transparency of the APVMA's registration process that can, by its very nature, be a relatively complex matter. The Registration Process has been added to both AgMORAG and VetMORAG.

The APVMA intends to update the Registration Process to reflect changes to the registration process resulting from legislative amendments and process improvements as they occur.

The Registration Process, in the main, reflects current APVMA processes. However, the document does include some process refinements that the APVMA expects to include into its internal business processes during August 2010.

Application Summaries

The APVMA publishes complete application summaries on the APVMA website, www.apvma.gov.au. They are published in weekly instalments using the date the application was accepted for assessment. If an application summary has been amended, the APVMA will publish the amended version on the website and list it separately in the APVMA Gazette Notice for Application Summaries.

As a requirement of Regulations 8C and E of the Agvet Code, some product names will appear as 'NOT AVAILABLE'.

A summary will be removed from the website 28 days after the application has been finalised. Therefore, some summaries published in this notice may have already been removed prior to the Gazette being published.
