## Change to Conditions for the Import and Export of Methamidaphos

As required by section 69C(2) of the *Agricultural and Veterinary Chemicals (Administration) Act 1992* the Australian Department of Agriculture and Water Resources gives notice that the conditions that apply to the import or export of the active constituent methamidaphos, or proposed products containing the active constituent methamidaphos, are changing.

The amendment is required to fulfil Australia's obligation under the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade.

Under the Rotterdam Convention, export of these chemicals to countries that are parties to the Convention for use as a pesticide may be prohibited absolutely, or only authorised if certain specified conditions given by the importing party are met. Exporting parties must ensure that exports do not occur when the importing country has indicated that it does not consent to imports of that chemical.

In order to meet export notification requirements under the Rotterdam Convention, chemical companies seeking to export a controlled chemical must apply to the Australian Government Department of Agriculture and Water Resources for permission to export (contact details are at the end of this notice). Companies exporting these chemicals to countries that are parties to the Convention must:

- (i) include the Harmonised System Customs Code for the chemical (where assigned) on shipping documentation
- (ii) ensure adequate labelling of the chemical: include information regarding risks and/or hazards to human health or the environment; comply with relevant international standards applicable to labels
- (iii) provide to the importer (if the chemical is to be used for occupational purposes) a safety data sheet that follows an internationally recognised format, with the most up to date information available, in one of the official languages of the importing party if practicable
- (iv) comply with any specified conditions stipulated by the importing country and promulgated by the secretariat to the Rotterdam Convention as advised by the authorised officer.

The amendment expands the prior informed consent procedure to apply to all methamidaphos concentrations.

The amendment will not take effect in less than 30 days from the date of this notice.
