The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](#).

In accordance with section 45A(1)(b) of the Agvet Code, the APVMA publishes this notice of the cancellation, including the following instructions which set out how a person can deal with the cancelled active constituent, cancelled product or product bearing a cancelled label referred to in Table 12.

Instructions

Instructions for persons who possess, have custody of or use the cancelled active constituent, cancelled product, or the product bearing a cancelled label under section 45b(3) of the Agvet Code.

A person who possesses, has custody of or uses the cancelled active constituent, cancelled product or product bearing a cancelled label referred to in Table 12 in accordance with the instructions contained in this notice, is taken to have been issued with a permit under section 45B(3) of the Agvet Code to possess, have custody of or use the cancelled active constituent, cancelled product or product bearing a cancelled label, in accordance with those instructions.

Possession or custody

A person may possess the cancelled active constituent, cancelled product or product bearing a cancelled label referred to in Table 12 in accordance with its label instructions for 12 months from the date of cancellation.

Use, supply or otherwise deal with

A person may use the cancelled active constituent, cancelled product or products bearing a cancelled label referred to in Table 12 according to its label instructions, including any conditions relating to shelf life or expiry date, for 12 months after the date of cancellation.

A person may supply or cause to be supplied at wholesale or retail level the cancelled active constituent, cancelled product, or product bearing a cancelled label referred to in Table 12, for 12 months after the date of cancellation.

Contraventions

After the day that is 12 months from the date of cancellation it will be an offence against the Agvet Code to have possession or custody of the cancelled active constituents, cancelled products or products bearing a cancelled label with the intention to supply, or to supply the cancelled active constituent, cancelled product, or product bearing a cancelled label.

It is an offence to possess, have custody of, use, or otherwise deal with the cancelled active constituents, cancelled products or products bearing the cancelled label listed in Table 12 in a manner that contravenes the above instructions.

Notice under section 32(1) of the Agvet Code: Reconsideration of anticoagulant rodenticide approvals and registrations

- 1) The Australian Pesticides and Veterinary Medicines Authority (APVMA) gives notice that the APVMA is reconsidering active constituent approvals, product registrations and associated label approvals of anticoagulant rodenticides for: first generation anticoagulant rodenticides (warfarin, coumatetralyl, diphacinone) and second generation anticoagulant rodenticides (brodifacoum, bromadiolone, difenacoum, difethialone, and flocoumafen), under section 31(1) of the Agricultural and Veterinary Chemical Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Agvet Code).
- 2) The reconsideration includes the active constituent approvals, product registrations and label approvals shown in Attachment A.

Matters the APVMA is proposing to reconsider in relation to anticoagulant rodenticides

- 3) The APVMA is reconsidering anticoagulant rodenticide approvals and registrations because of concerns about potential for unacceptable risks in the following areas:
 - a. environmental safety, including primary and secondary poisoning of non-target domestic animals and wildlife;
 - b. human health, including worker exposure and public health; and,
 - c. residues, including livestock and edible wildlife exposure, consumer safety, and trade.
- 4) The APVMA will review the following aspects of active constituent approvals, product registrations and label approvals for the specified anticoagulant rodenticides:
 - a. Chemistry
 - i. The establishment of appropriate standards for manufacturing concentrates;
 - b. Toxicology
 - i. The safe level of exposure of humans via the oral, dermal and inhalational routes
 - c. Worker and public exposure
 - i. Risks arising from exposure during handling and applications;
 - ii. Re-entry exposure risks including exposure in domestic situations;
 - d. Residues
 - i. Residues in foods through primary and secondary exposure; and
 - e. Environment
 - i. Off target poisoning
 - ii. Secondary poisoning
- 5) The APVMA is also considering whether product labels carry adequate instructions and warning statements.

Reasons for those matters being dealt with in the reconsideration

- 6) The matters that are dealt with in the reconsideration include component chemistry, environment, residues, toxicology and occupational health and safety assessments.

- 7) The basis for the reconsideration is whether the APVMA is satisfied that:
- a. the active constituents continue to meet the safety criteria as set out in section 5A of the Agvet Code; and
 - b. the products continue to meet the safety criteria as set out in section 5A of the Agvet Code; and
 - c. the products continue to meet the trade criteria as set out in section 5C of the Agvet Code; and
 - d. the labels continue to meet the labelling criteria as set out in section 5D of the Agvet Code; and
 - e. the active constituent, product or label complies with any requirement prescribed by the Agricultural and Veterinary Chemicals Code Regulations 1995.

Reconsideration Work Plan

- 8) A Work Plan for the reconsideration has been prepared in accordance with section 31(2) of the Agvet Code and can be found in Attachment B.

Data requirements

- 9) The general data guidelines for each of the relevant risk areas are provided on the APVMA website as detailed in Table 13 below. The APVMA has identified the specific aspects of these data that are required to inform the assessments to be undertaken in paragraph 4 above. Additional information may be requested during the reconsideration pursuant to section 33 of the Agvet Code.

Making a submission

- 10) The APVMA invites submissions on the matters being reconsidered and the reasons for the reconsideration.

Preparing your comments for submission

- 11) When preparing your submission, the APVMA prefers you to:
- a. clearly identify the issue and clearly state your point of view
 - b. give reasons for your comments, supporting them with relevant scientific information and indicating the source of the information you have used.
- 12) Electronic submissions are preferred; all electronic submissions to the APVMA will be acknowledged via email. When making a submission please include:

- contact name
- company or group name (if relevant)
- postal address
- email address
- the date you made the submission.

Please note: Submissions will be published on the APVMA's website, unless you have asked for the submission to remain confidential.

Please lodge your submission with a [public submission coversheet](#) which provides options for how your submission will be published.

Note that all APVMA documents are subject to the access provisions of the *Freedom of Information Act 1982* and may be required to be released under that Act should a request for access be made.

Note that all submissions received are subject to legislative requirements, including the *Freedom of Information Act 1982*, the *Privacy Act 1988* and the Agvet Code. In providing your submission to the APVMA, you agree to the APVMA publicly disclosing your submission in whole or summary form. The APVMA confirm that if your submission includes confidential commercial information or protected information, such information shall be subject to the relevant provisions of the Agvet Code including relevant limitations on use and disclosure by the APVMA.

13) The closing date for submissions is 2 February 2021.

Attachment B: Work plan for the reconsideration of anticoagulant rodenticides

CHEMICAL	First and second generation anticoagulant rodenticides	
ASSESSMENTS	Chemistry [2.2], Toxicology [3.2], Environment [7.1], Occupational Health and Safety [6.1], Residues and Trade [5.2], Finalisation [11.1]	
ASSESSMENT PERIOD	42 months, see Attachment C	
TIMEFRAME	START: February 2022	FINISH: July 2025
WORK PLAN DATES	The timeframe for the review commences at the end of the period specified in the s 32 notice.	

Stage	Details	Timeline
1. Nomination	Nominated for review following identification of new worker exposure, public health and environmental safety risks (2015).	
2. Prioritisation	Prioritised based on consideration of key criteria, including worker exposure, public health, environmental safety, and the potential for residues in food (2021).	
3. Scoping and work plan	Scope: chemistry, toxicology, worker and public exposure, environment, residues, trade and adequacy of label instructions (2021).	
4. Notice of reconsideration	S 32(1) notices sent to holders upon commencement of the review on 2 November 2021. Notice of reconsideration – Published in Gazette on 2 November 2021.	
START DATE (clock starts)		February 2022
5. Assessment	<u>Component assessment reports to be completed</u> Chemistry, toxicology, worker and public exposure, environment residues and trade.	Expected 2024
6. Draft regulatory measure	<u>Draft regulatory measures to be completed</u> Proposed regulatory decisions.	Expected 2024
7. Consultation	<u>Consultation to be undertaken</u> A 3-month public consultation period will follow the publication of the proposed regulatory decisions report. Any further data or information submitted during consultation will be taken into consideration before the final regulatory decision is made.	Expected 2024
8. Regulatory decision	The legislated timeframe for the final regulatory decision is 42 months, although it may be completed sooner. <u>Regulatory decisions to be made</u> The APVMA will determine whether to: <ul style="list-style-type: none"> Vary, suspend or cancel actives, products or labels (s34AB) Affirm actives, products or labels (s34AC) 	Expected 2024
END DATE (final regulatory decision)		July 2025
9. Implementation	The APVMA will publish details of any applicable phase out periods if any approvals of actives, registration of products or label approvals are cancelled. The maximum phase out period specified in the legislation is 12-months.
