

Agvet chemical voluntary recall

CADENCE® Herbicide

APVMA registration number: 88627

APVMA approved label number: 88627/121858

Batch numbers: EUM0J001, EUM0K001, EUM0L001, EUM1A001, EUM1B3678, EUM1C3496, EUM2B001, EUM2C002

Sold by agricultural retailers in New South Wales, Queensland, Victoria, South Australia and Western Australia between October 2020 to July 2022

On 28 July 2022, Syngenta Australia Pty Ltd, ACN 002 933 717 initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall:

When CADENCE® Herbicide (batch numbers EUM0J001, EUM0K001, EUM0L001, EUM1A001, EUM1B3678, EUM1C3496, EUM2B001, EUM2C002) is stored for an extended period moisture condensation can cause the product granules to stick together resulting in solid lumps of product forming that are difficult to remove from the container. No other batches are affected.

Hazard:

When solid lumps form in the container this will prevent normal preparation and use of the product. If used, the affected product may not disperse readily in the spray tank causing nozzle blockages in spray application equipment and poor efficacy.

What to do:

DO NOT use the product if the batch number is EUM0J001, EUM0K001, EUM0L001, EUM1A001, EUM1B3678, EUM1C3496, EUM2B001 or EUM2C002. Return unopened or partially used containers of CADENCE® Herbicide from this batch to the retail outlet where purchased for a full refund.
