On 16th December 2022, Troy Laboratories Pty Ltd, ACN: 000283769 initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall:

This batch recall has been initiated due to the incorrect syringe being included with the product.

This product should include a syringe with “kg” markings (i.e., measuring in mg/kg body weight), but instead includes the syringe with normal “mL” markings.

Hazard:

Use of the incorrect syringe may result in dosing errors.

What to do:

If you are in possession of the affected product and you are a veterinarian, please contact the holder to arrange replacement of stock.

If you are an animal owner who has been prescribed this product and have it in your possession, please contact your veterinarian to arrange a replacement and to discuss your pet’s treatment as required.

Troy sincerely regrets any inconvenience this product recall may cause to your business or customers.
